

## **POTASH RIDGE REPORTS THIRD QUARTER 2013 RESULTS; BOARD OF DIRECTORS ADOPTS ADVANCE NOTICE BY-LAW**

**TORONTO, ONTARIO – November 6, 2013** Potash Ridge Corporation ("Potash Ridge" or the "Corporation") (TSX: PRK ; OTCQX: POTRF) today released its third quarter financial results.

### **Q3-2013 Financial Results**

- The Corporation reported a net loss for the third quarter of 2013 of \$1.9 million (\$0.02 per share) compared with a net loss of \$1.4 million (\$0.02 per share) for the third quarter of 2012.
- A total of \$1.3 million was incurred on project activities during the third quarter compared with \$2.8 million on project activities for the third quarter of 2012. Most of the spending during Q3-2013 related to the Prefeasibility Study, permitting activities and metallurgical test work. During Q3-2012 spending primarily related to the Phase 2 drilling program.
- The Corporation closed the third quarter of 2013 with cash and cash equivalents of \$10.5 million and had accounts payable and accrued liabilities of \$0.9 million.

Third quarter unaudited Financial Statements and Management's Discussion & Analysis are available at [www.sedar.com](http://www.sedar.com)

### **Advance Notice By-law**

The board of directors of the Corporation has approved an amendment to the Corporation's by-laws to add a provision that requires advance notice to the Corporation in circumstances where director nominations are made by shareholders of the Corporation, other than in connection with (i) the requisition of a shareholders' meeting, or (ii) a shareholder proposal, in each case made pursuant to the *Business Corporations Act* (Ontario) (the "**Advance Notice Provision**").

Among other things, the Advance Notice Provision fixes a deadline by which holders of record of common shares of the Corporation must submit director nominations to the Corporation prior to any annual or special meeting of shareholders and sets forth the information that a shareholder must include in the notice to the Corporation.

In the case of an annual meeting of shareholders, notice to the Corporation must be made not less than 30 days and not more than 65 days prior to the date of the annual meeting; provided, however, that in the event that the annual meeting is to be held on a date that is less than 50 days after the date on which the first public announcement of the date of the annual meeting was made, notice may be made not later than the close of business on the 10th day following such public announcement.

In the case of a special meeting of shareholders (which is not also an annual meeting), notice to the Corporation must be made no later than the close of business on the 15th day following the day on which the first public announcement of the date of the special meeting was made.

The Advance Notice Provision provides a clear process for shareholders to follow for director nominations and sets out a reasonable time frame for nominee submissions and the provision of accompanying information. The purpose of the Advance Notice Provision is to treat all shareholders fairly by ensuring that all shareholders receive adequate notice of the nominations to be considered at a meeting and can thereby exercise their voting rights in an informed manner.

The by-law amendment is effective immediately and will be placed before shareholders for ratification and confirmation at the next annual meeting of shareholders of the Corporation. A

copy of the by-law amendment has been filed under the Corporation's SEDAR profile at [www.sedar.com](http://www.sedar.com).

## **About Potash Ridge**

Potash Ridge is a Canadian based exploration and development company with a unique opportunity to develop a SOP and alumina rich material project into long-term mining production.

The Company's Blawn Mountain Project consists of four areas of surface mineable alunite mineralization in the State of Utah. Alunite is a sulfate mineral ore rich in both SOP and alumina.

Located in a mining friendly jurisdiction with established infrastructure nearby, the project covers approximately 15,404 acres of state-owned land and has a known permitting process. Extensive development was completed in the 1970s including a mine plan, feasibility study and 3-year pilot plant operation.

Potash Ridge has a highly qualified and proven management team in place with significant financial, project management and operational experience and the ability to take projects into production.

## **Forward-Looking Statements**

*This press release contains forward-looking statements, which reflect the Corporation's expectations regarding future growth, results of operations, performance and business prospects. These forward-looking statements may include statements that are predictive in nature, or that depend upon or refer to future events or conditions, and can generally be identified by words such as "may", "will", "expects", "anticipates", "intends", "plans", "believes", "estimates", "guidance" or similar expressions. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. These statements are not historical facts but instead represent the Corporation's expectations, estimates and projections regarding future events. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Corporation, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Known and unknown factors could cause actual results to differ materially from those projected in the forward-looking statements. Such factors include, but are not limited to: the future financial or operating performance of the Corporation and its subsidiaries and its mineral projects; the anticipated results of exploration activities; the estimation of mineral resources; the realization of mineral resource estimates; capital, development, operating and exploration expenditures; costs and timing of the development of the Corporation's mineral projects; timing of future exploration; requirements for additional capital; climate conditions; government regulation of mining operations; anticipated results of economic and technical studies; environmental matters; receipt of the necessary permits, approvals and licenses in connection with exploration and development activities; appropriation of the necessary water rights and water sources; changes in commodity prices; recruiting and retaining key employees; construction delays; litigation; competition in the mining industry; reclamation expenses; reliability of historical exploration work; reliance on historical information acquired by the Corporation; optimization of technology to be employed by the Corporation; title disputes or claims and other similar matters.*

*If any of the assumptions or estimates made by management prove to be incorrect, actual results and developments are likely to differ, and may differ materially, from those expressed or implied by the forward-looking statements contained herein. Such assumptions include, but are not limited to, the following: that general business, economic, competitive, political and social uncertainties remain favorable; that agriculture fertilizers are expected to be a major driver in increasing yields to address demand for premium produce, such as fruits and vegetables, as well as diversified protein rich diets necessitating grains and other animal feed; that actual results of exploration activities justify further studies and development of the Corporation's mineral projects; that the future prices of minerals remain at levels that justify the exploration and future development and operation of the Corporation's mineral projects; that there is no failure of plant, equipment or processes to operate as anticipated; that accidents, labour disputes and other risks of the mining industry do not occur; that there are no unanticipated delays in obtaining governmental approvals or financing or in the completion of future studies, development or construction activities; that the actual costs of exploration and studies remain within budgeted amounts; that regulatory and legal requirements required for exploration or development activities do not change in any adverse manner; that input cost assumptions do not change in any adverse manner, as well as those factors discussed in the section entitled "Risk Factors" in the Corporation's Annual Information Form (AIF) for the year-ended December 2012 found on [sedar.com](http://www.sedar.com). The Corporation disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise, except as required by applicable law.*
